

HOLIDAY DRIVE FUNDRAISER 21-22

ETH is a 501(c)3 organization that serves a community of over 70,000 people from 54 villages in rural Uganda. ETH works to empower the world's most vulnerable by providing healthcare, conducting research, and developing sustainable and scalable solutions to health issues in these communities.

In rural Uganda, people suffer from conditions that modern medicine has learned to address decades ago. The district in which we work in Uganda, Buyende District, has a population of 363,300 but only one practicing clinical physician. ETH is the only facility providing mental health care in the entire district. There is nowhere in the district in which patients can obtain blood work, mothers die from routine childbirth, children die of malaria because of medicine stock-outs, numerous disabilities occur because of lack of reliable medical care, and millions live with chronic debilitating neglected tropical diseases. We bring the resources of modern medicine to the populations that need it the most.

We founded Empower Through Health under the belief that no matter who we are or where we come from, there is more that unites us than separates us. Drawing upon our intercultural strength, we seek to be advocates and healers for those left out of the global system.

Since 2019, we have given medical care to 20,349 people previously without access to modern essential medical services. We also conducted vital public health research to inform our work and to advance the frontiers of scientific knowledge in 2019 and 2021. This organization and this work mean the world not only to the 70,000 people who can access modern healthcare but also to us.

The Empower Through Health team relies on the contribution of individuals to finance our clinical operations. Any donation goes a long way in rural Uganda where we operate. Just \$1 can diagnose someone for HIV, \$25 can test and treat 40 people for malaria, and \$1,000 could stock the Mpunde Health Center for a month.

We all are united by our common humanity and our quest for dignity, companionship, and purpose. We believe that all human life is precious and equal and that we should all be able to live in good health to have agency to determine our futures. Please consider helping us this holiday season by donating to our campaign
